

Ti Spend® — Experts in Spend Transparency Solutions

The pharmaceutical, medical device, and biologics industries are required to track and report on practitioner payments and transfers of value in promotional, research, and contractual activities. Requirements are not consistent, and companies find increasing frustration by the challenges of applying a comprehensive, holistic approach across the organization in order to comply. **Ti Spend®** is QPharma's robust, cost-effective solution for tracking, evaluating, compiling and reporting transactions in a compliant manner.
