

A Trusted Partner for Sample Warehousing and Fulfillment

In addition to PDMA compliance and sample management solutions, QPharma® offers a complete range of fulfillment and distribution services for life science companies. Our state-of-the-art warehouse and fulfillment center, located in Northern New Jersey, features convenient proximity to major ports, highways, and other distribution hubs.

QPharma's NABP-accredited, temperature-controlled facility is registered with the FDA and DEA, and all solutions are compliant with the PDMA, 21 CFR Part 11, and cGMP guidelines. From small pharmaceutical and device companies, to major life science manufacturers, QPharma provides end-to-end solutions for sample and literature distribution, trade distribution, and more.
